

PRESS RELEASE for 7/15/07

ChemRem and FMC Corporation have reached agreement that expands ChemRem's representation to include all environmental products for all remediation/restoration markets across the United States and Canada. Products include PermeOx® Plus, Klozur® persulfate, hydrogen peroxide, and OBC. President and CEO Jim Studer says "ChemRem is pleased with the success achieved to date in representing FMC and in the confidence FMC is showing in ChemRem by expanding our representation. Customers are expressing satisfaction with the technical qualifications of our technical sales force and the service they are receiving in product selection, guidance on application, and facilitation of the ordering process."

ChemRem™ International LLC (ChemRem) is an Arizona Corporation founded in 2006 to provide manufacturer representation service to the environmental remediation and restoration marketplace. ChemRem's focus is on products for chemical oxidation and bioremediation of organic contaminants present in soil, rock, groundwater, surface water, and wastewaters. ChemRem represents industry leading products manufactured by FMC Corporation of Philadelphia, PA, the world leader in peroxygen chemistry and products. PermeOx® Plus, hydrogen peroxide, Klozur® brand of persulfate, and the new product Klozur® CR are some of the products that can be obtained from FMC with ChemRem assistance. As the Authorized Representative for North America, ChemRem provides technical assistance in product selection and application and facilitates the ordering process. Operational headquarters are located in Albuquerque, New Mexico, USA. A technical sales representative may be reached at 877-ChemRem or at sales@chemrem.com.
