

PRESS RELEASE

4/21/08

ChemRem International will be presenting at the top industry technical symposium in the environmental remediation industry - the Battelle Columbus sponsored **Remediation of Chlorinated and Recalcitrant Compounds Conference May 19-22, 2008 in Monterey, California.**

ChemRem's CEO, Jim Studer, will be co-authoring four platforms or posters with emphasis on treatment of chlorinated solvents, Freons, and 1,4 Dioxane using activated persulfate technology at the symposium.

ChemRem will also be present at the FMC Corporation booth in the Exhibit hall for any questions/inquires on the presentations that will be given at the technical symposium.
